Principal's Message

By Larry Vilaubi

As I said earlier this year, one of the great advantages to being a charter school is our ability to be flexible in order to better serve the needs of our students and we are using that flexibility to make some adjustments to our tutorial/enrichment program.

When we looked at our first quarter grades we saw some issues we need to address. While we had an awful lot of kids who are doing great – see the honor roll listed in this newsletter – we also identified a number of kids who are not doing as well as we would like. To help those kids who are struggling, we are going to narrow down the enrichment offerings and provide more tutorial help between now and the end of the semester in late January. It's important that kids raise their grades by then because the semester grades become a part of their permanent record and will be on their transcripts when they apply to college.

As always, you can help us by making sure your students are doing their homework and come prepared for school every day. We are in this together and together we can help all our kids make that Honor Roll.

Let's Celebrate!
